

Genclean chemical feed dosing systems for hotel/resort pools, water features and aquatic parks are designed to offer cost-efficient, panel mounted systems that are fully assembled and ready to install.

These systems are factory tested and designed to provide optimized treatment performance for the disinfection of pools in hotels/resorts, aquatic parks, and water features with minimized maintenance versus more complex systems.

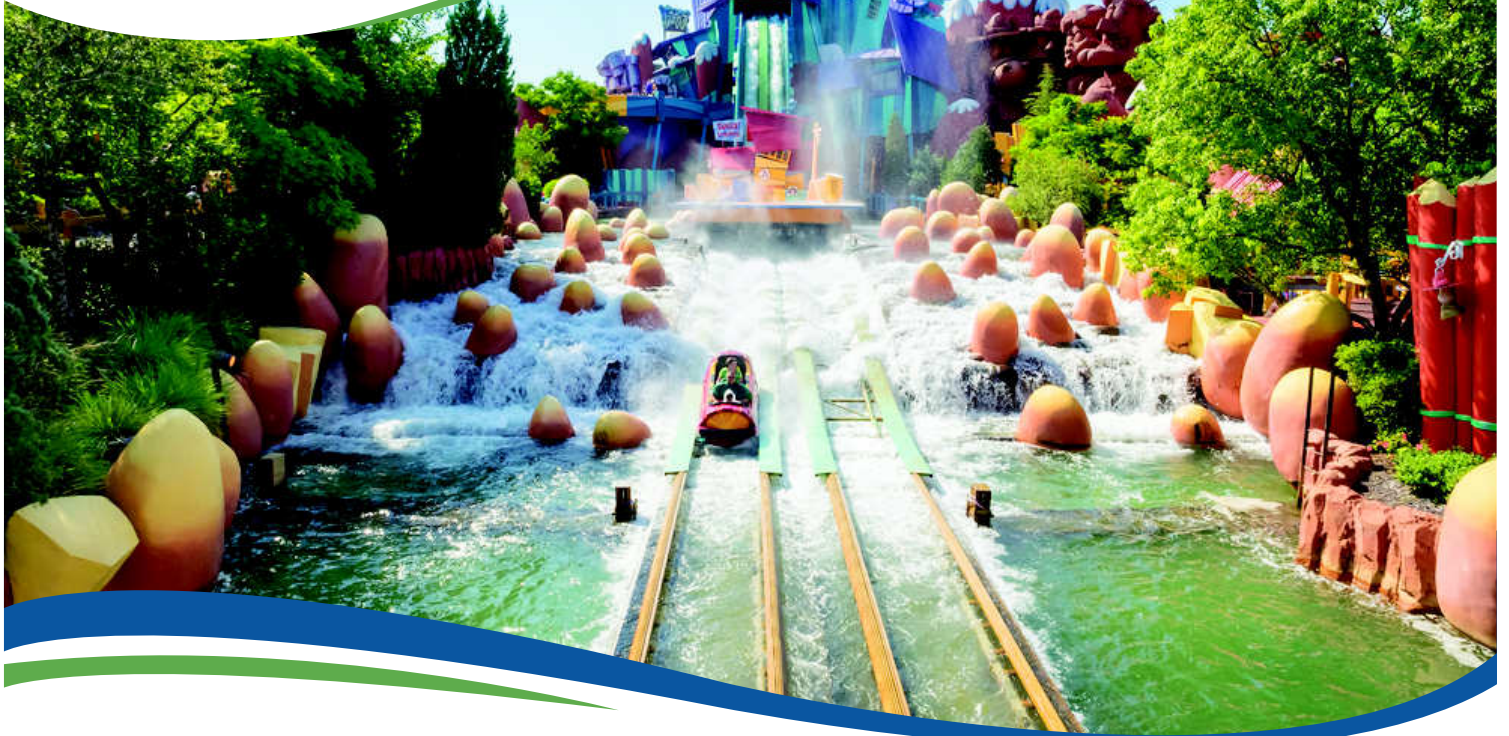

Equipped with Two Peristaltic Chemical Feed Dosing Pumps for pH/ORP Dosing Capability.

#### **SYSTEMS FEATURES INCLUDE:**

- Panel Mount System with Analog Output and Flow Cell Mounting Assembly
- Built in Automatic Datalogger with 4-20mA Outputs and a USB output
- Hold Feature to allow for connection to a flow switch to stop pumps when there is no water flow
- Programmable Alarms for ORP/pH out of range conditions
- System Controller is Password Protected for Security
- Self Priming Peristaltic Pumps with Advanced Seal less Peristaltic Pumping Technology
- 120/220v 50/60hz Power Supply
- Automatic Proportional Feed Pump Control based on ORP and pH programmed values
- Adjustable Flow Rate from 0.13 GPH (0.5 LPH) to .92 GPH (3.5 LPH)
- Chemical Resistant Tubing for Extended Life that is Simple to Replace
- Feed Flow Rates are Scalable with Multiple Panel Mount Systems to Accommodate Different Flow Rates

Genclean Pool is introduced into the water source using a specifically designed inline static mixer to meet the pool filter pipe size to optimize mixing performance. This inline static mixer is installed after the pool water filtration system in all applications.

## SYSTEM ADVANTAGES

### SCALABLE, EASY TO INSTALL, EFFECTIVE, SAFE

The innovative unique design of GWT chemical feed dosing systems for hotel/resort pools, aquatic parks and water features allow for depend-able and reliable ORP and pH dosage within programmed ranges for varying water flow rates. The systems design and feed tubing configuration allow for easy access to system parts for quick maintenance & replacement.

## APPLICATIONS:

The GWT pool feed dosing systems can feed the following Genclean advanced oxidation treatment solutions:

- Genclean Pool

For assistance or more information about the GWT pool chemical feed dosing systems and its application for your hotel/resort pool, aquatic park or water feature application please reach out to us by phone or email us at [customersupport@gencleantreatment.com](mailto:customersupport@gencleantreatment.com).
